

3MINS; I request that my 3 mins be included in the minute's

My name is sue marris a resident of east budleigh parish and on the committee of east budleigh in bloom as press officer. East budleigh in bloom as you know maintains many planters tubs and pots and also maintains part of the recreation ground for the village,

The overwhelming vote of no confidence taken against the parish council at the parish meeting on Sunday must surely have some impact upon your consciences as individuals . It cannot feel very comfortable sitting where you are now knowing that the village has no trust , faith or confidence in you . Your own district councillors have advised you to re-examine your processes and the way you conduct yourselves in the perception of the public. Especially in the role as chairman.. such responsibility demands fairness. Instead it is carried out with arrogance; others would level a more serious condemnation. As chairman you have lost your community, you have demised the role and demised the rest of the council.

Well There is no better time than now to rediscover all your voices or else forever be saddled with the complicity of being part of a discredited parish Council.
